RE: MB Docket 10-56

Dear Chairman and Commissioners:

Throughout the years, television stations like KNTV have been excellent partners with our organization, The Tech Museum, and others in the non-profit community. The station devotes significant resources to public service and therefore has the ability to inform large numbers of viewers about important community events such as The Tech Museum's signature programs; The Tech Awards, technology benefiting humanity, and our annual team design challenge for grades 5-12 called The Tech Challenge. We support the proposed Comcast/NBC joint venture because it will result in stronger local NBC stations and enable those stations to continue to provide this valuable community service to residents and non-profit organizations.

Sincerely,

Elizabeth Williams  
Vice President of Marketing
